## FROM DIRECTOR'S DESK

Being the Director of an 'Institution of National Importance' is a matter of pride as well as a burden of responsibility. This position has been held by stalwarts who have nurtured this institution to where it is today in such short span of time. Now, as the baton has passed on to me, I realize that it is for me to lay a roadmap that would take this institution to even greater heights. NIT Delhi has been successfully fulfilling its mandate of developing competent professionals to serve not only our country, but the world as a whole. At the National Institute of Technology Delhi, achieving academic excellence has been our ambition right from inception. As we spread our wings of knowledge, the Institute has already begun its journey of excellence with advanced learning and research endeavors in various disciplines of Engineering, Science and Technology, Management and Humanity. NIT Delhi is sincerely committed to accumulating the best talents of learners and instructors from across the globe and thus imparting holistic education along with the best practice of superior professional ethics. We are hopeful to develop our permanent campus soon with state of the art infrastructure and advanced facilities. With these milestones and a lot more to achieve in the near future, I feel gratified to invite all the recruiting organizations for the placement session of 2020-21 batch.

**Dr. Praveen Kumar  
Director**

# From the TPO's Desk

NIT Delhi has been able to carve a niche for itself among the premier institutes and aims to achieve international distinction for commitment, creativity, innovation and excellence as the prior standards. It also prioritises cultivation of knowledge and research activities to develop technologies for the society. The institute has the finest faculty and the best students for its Bachelor's, Master's and Doctoral programmes with a rich tradition of pursuing excellence in terms of academic programmes and research infrastructure. The students are not only exposed to challenging research-based academics but also a host of sports, cultural and organizational activities on its vibrant campus.

The institute offers plethora of placement opportunities to its students graduating with Bachelors of Technology and Masters of Technology degrees. Though very young, NIT Delhi is on its pathway of progress and has been able to attract some big names in the corporate world.

We highly value our partnership with recruiters and alumni of NIT Delhi and remain committed to make this endeavor productive and positive. I, on behalf of NIT Delhi invite the recruiting organizations and graduating students to find the best match between their needs and capabilities.

Dr. Kapil Kumar  
Training and Placement Officer, NIT Delhi

## ABOUT NIT DELHI

---

In a short span of 10 years, this Institute has soared over the horizons of new beginnings and is building its magnificent home brick by brick. The Institute has taken great leaps and is creating waves among the Intelligentsia and the world of academia. Founded in 2010 by the Government of India, NIT Delhi strives to provide world class education to its intellectually stimulated students. Its underlying mission is to promote the development of individuals who seek world class technical and professional competence in their respective fields. As a fully funded governmental body, NIT Delhi was established as an institute of 'National Importance' during the 11th Five Year Plan under the Ministry of Human Resource Development. For the initial two years, academic activities were conducted at NIT Warangal, the mentor Institute for NIT Delhi. Presently the operations are being carried out at its temporary campus being in Narela. The Institute's permanent campus is being built at Narela with world class infrastructure. Through generating cohorts of motivated students, NIT Delhi aims to continue on its path of achieving international distinction. It also commits to develop technologies for society through the cultivation of knowledge and research.

# Academic Programmes

## UNDERGRADUATE PROGRAMMES

### • Bachelor of Technology (B.Tech)

Duration: 4 years

Final year project: 1 year

- Computer Science and Engineering
- Electronics and Communication Engineering
- Electrical and Electronics Engineering

## GRADUATE PROGRAMMES

### • Master of Technology (M.Tech)

Duration: 2 years

Thesis period: 1 year

- Electronics and Communication Engineering
- Computer Science and Engineering (Analytics)
- Mechanical Engineering (CAD/CAM)
- Electrical and Electronics Engineering (Power electronics and drives)
- Electronics and Communication Engineering (VLSI)
- Smart Material and Technology (Applied Sciences)

## DOCTORAL PROGRAMMES

### • Ph.D. in Engineering Discipline:

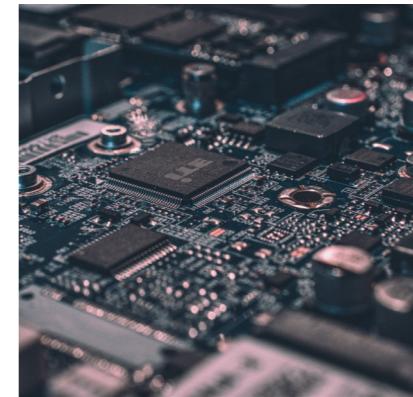

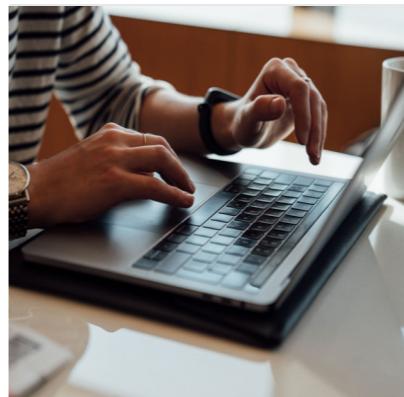

- Computer Science and Engineering
- Electronics and Communication Engineering
- Electrical and Electronics Engineering
- Mechanical Engineering

### • Ph.D. in Applied Sciences

### • Ph.D. in Humanities/Management

# Admission Procedure

Leveraging the advantage of being located in the capital of India, NIT Delhi attracts the highly competent minds from all over the country. The cutoff of the various programmes make sure that only the best minds make it into the campus. The admissions are carried out on basis of numerous competitive entrance exams :

### B. Tech Programme

The programme's central goals are to impart fundamentals of professional engineering to the young students. The admission to these programmes is carried out through the Joint Entrance Exam-MAIN; one of the toughest examinations in the world with an acceptance ratio of 0.14% from a pool of 10,00,000 students. Also, students from outside India are admitted through SAT (Admissions for Foreign Nationals / Persons of Indian Origin (PIOs) / Non Resident Indians (NRIs) under Direct Admission of Students Abroad.)

### M. Tech Programme

This four-semester program is developed to provide the graduates with a synergistic combination of the industry oriented course work and research. Graduate students in various fields of engineering are admitted to various specializations through GATE (Graduate Aptitude Test in Engineering). The academic curriculum includes core courses and electives to develop a strong theoretical base along with a final year project and seminars. Admitted graduates may have prior experience.

### Ph.D Programme

Ph.D. degree is in recognition of high achievements, independent research and application of scientific knowledge to the solution of technical and scientific problems. The admission to the Ph.D. program undertakes a rigorous process of submission of abstracts of the research work, National level entrance test and interview conducted by NIT Delhi.

# Why Recruit at NIT DELHI?

NIT Delhi strives to provide the world class education and an intellectually stimulating environment to its students with a mission to help them develop into individuals with technical and professional competence of the highest degree. Being situated in the capital of India, we have an edge over the others; in terms of availability of resources, and the best talent of the nation. Within a short span of time, we will make a mark in the field of education. Moreover, we have prominent professors, and highly experienced and expert faculty. Our mission is to produce human resources with creative and innovative ideas, competitiveness with high intellect and professional ethical values and to impart holistic education along with inculcating high moral values in the students. We have a diverse batch of students with interests across the fields like IT, research, core engineering, analytics, finance and consulting.

# Achievements

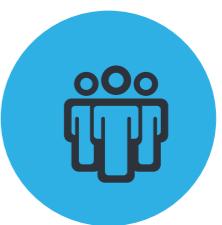

## Start-Up Centres

NIT Delhi is proudly associated with the enterprising movement, Start-up India Stand Up India and has been set up as one of the thirteen start-up centres among the national institutes by Ministry of Human Resource Development (MHRD) and Department of Science and Technology (DST). The student driven startups are encouraged and supported by the institute to transform it into a start-up hub.

## GE Edison Challenge

It is a matter of pride that a team from NIT Delhi was shortlisted as one of the 25 finalists out of 500 teams across the nation in the GE Edison Challenge of 2016, an open innovation challenge for university students. Our project of Piezo Based Traffic Management system has won accolades from all over the nation.

## NIT Conclave

NIT Conclave is an annual gathering of the intellectual minds of the nation for the sessions of unparalleled brainstorming and exchange of ideas that aim to promote interaction among the students of different NITs. The students of NIT Delhi won the second prize in the conclave held at NIT Surathkal.

## Intern at CERN

One of the student from ECE department Mr. Mayank Sharma recently finished his internship with CERN, Geneva and won laurels for his project.

## ACM ICPC

NIT Delhi has recently secured top 10% institute rank in the ACM ICPC

## TEEP

Three Ph.D students of NIT Delhi were invited for TEEP programme at National Chung-Cheng University, Taiwan.

# Life at NIT DELHI

NIT Delhi aims at achieving holistic development of its students. Apart from receiving good grades in their academics, students are also engaged in various extracurricular activities that provide them with immense opportunities to showcase their talent in varied fields: be it managerial, technical or artistic skills. The Institute hosts a multitude of inter branch events, cultural and technical fests that are solely managed by its students that provides them with crucial experience necessary for their career objectives. NIT Delhi is a journey in itself. It provides the much needed exposure as how to build something new and innovative as well as equips them with managerial skills.

## SAPTRANG

### Annual Cultural Fest

The annual cultural fest of NITD aiming to provide a platform to bring out various talents of the students of the college. It aims to mould the workforce into leaders, by instilling essential qualities like perseverance, dedication and team work. It encompasses aspirations and enthusiasm of the college students in events such as dance, dramatics, music, photography and fine arts.

## TERRA TECHNICA

### Annual Technical Fest

TerraTechnica is the annual student-run technical festival led by the Tech Club of NIT Delhi. With the inception of TerraTechnica, NIT Delhi has embarked upon its journey into the realms of technology. TerraTechnica exposes the absolute growth of the visual modality of the participants to intensify the scope of nurturing. This festival is a true reflection of young spirit which brings out a wave of freshness and intellectualism. Conveying the sole motivation of continuous and cumulative importance of technology and its attributes in the developing scenario of the nation, TerraTechnica tends to strengthen the role of engineering applications and its utilisation.

# ZEAL

## Annual Sports Fest

Sports occupy the pride of place in students' hearts, with students competing in various competitions all through the year. Zeal is the annual Sports festival of NIT Delhi. The college offers opportunities to the students to showcase their talent in various outdoor and indoor sports. Lessons in teamwork and enthusiasm are often learnt on the field.

## SOCIAL REFORMATION CELL

The Social Reformation Cell, established in 2014 is a voluntary organization with a vision to revive the conditions of the residents of the nearby villages. The club has adopted four villages, namely, Bakoli, Bankner, and two others to which it sends its volunteers to give free tuitions to the children of these villages and also donates books and clothes to them. In addition to this, the club organizes an annual blood donation camp every year. As pledged by the club to work towards the betterment of the environment, it organizes a green fest "Greening the Blue" which included a tree plantation drive in order to create awareness amongst students regarding various environmental issues and help them understand the importance of preserving trees.

# Placement Office

The Placement Office is dedicated to campus placement at NIT Delhi. The Training and Placement Officer, the placement office staff and the student coordinators handle various necessary tasks in the office like inviting companies, scheduling and executing placement related activities and carrying out all the official communication with the recruiters and with students.

The Placement Office is well equipped with excellent infrastructure to support every stage of the placement process.

The facilities include :

- Seminar halls and auditorium to conduct workshops and preplacement talks
- Teleinterview Room
- Videoconferencing facilities
- Fully computerized and air conditioned office
- Infrastructure to support online and written screening tests.

Also the Institute possesses smart classrooms, elibrary app, free Wifi facility for the students. It makes efforts to help them enhance their personality through regular PDP classes, mock tests and mock personal interviews.

# Placement Procedure

## 1 Invite

Placement office sends invitations to companies/organizations along with the relevant information

## 3 Share

Student information may be shared with the company, if required.

## 5 Selection

After the completion of the selection procedure on campus, the company is required to announce the final list of the students on the same day itself. If a student is selected, the job is registered against him/her in a particular slab and he/she would not be allowed to appear for more interviews in that slab or slab below it as per placement policy.

## 2 Register

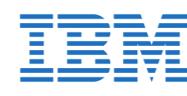

Interested companies need to fill a job application form and fill in the required details.

## 4 Date Allotment

Placement office allots the dates as per the convenience of the company for the conduction of a pre-placement talk/interviews.
